§ 01 BANNERS — 1128 × 191 · 1584 × 396

Two *surfaces,* two formats.

LinkedIn uses a different aspect ratio depending on where the banner lives. The earlier four banners were drawn to the personal-profile spec only — which is why, when uploaded to the `/company/altivaltd` Company Page, the square logo stamp crashed into the headline. Each direction now ships in both sizes.

SPEC · FIXED

LinkedIn Company Page cover — `1128 × 191` (≈5.9:1). Square logo overlay covers the bottom-left `~160 × 120` px of the banner.
LinkedIn Personal Profile background — `1584 × 396` (4:1). Circular avatar overlay covers the bottom-left corner.
Company Page is the primary upload target (the Altiva page is `/company/altivaltd`). The four original 4:1 banners are kept below as a personal-profile reference for Julien's own profile.

§ 01.A COMPANY PAGE 1128 × 191 — PRIMARY

A · Operator statement · Company

Same hero line, re-drawn for the narrow strip with the 240-px logo safe-zone baked into the left edge. Headline, rail, contact line — nothing that can collide with the logo stamp.

TIP · LINKEDIN SAFE-ZONES

Click **Show safe-zone** on any banner to overlay the logo / avatar footprint. Company Page square (1128×191): `x ≈ 32→192 · y ≈ 71→191`. Personal Profile circle (1584×396): `x ≈ 24→176 · y ≈ 320→396`. The three CP banners already reserve the full left 240 px — nothing important can collide with the logo.

§ 02 AVATAR — 800 × 800 · 2× RETINA

Logo *as avatar.*

Your full logo — chevron mark + ALTIVA wordmark — vectorised with a transparent background and available in four colour variants. Exported at **800×800** — 2× LinkedIn's 400×400 recommendation, so the chevron and wordmark stay crisp on retina feed and mobile even after LinkedIn's downsampling. Recommendation: **ink background, bone logo** — matches the banner system and the site's header treatment.

BONE BACKGROUND

↓ 800×800 PNG

BONE + BRASS

↓ 800×800 PNG

NOTE · FILES

The 4 avatar PNGs are pre-rendered in `public/linkedin/assets/`: `altiva-avatar-ink-800.png` (recommended), `altiva-avatar-bone-800.png`, `altiva-avatar-brass-on-bone-800.png`, `altiva-avatar-ink-on-brass-800.png`. The Download buttons fetch the static files directly — no browser canvas, works from `file://`. You can also copy them from the filesystem and upload to LinkedIn straight from Finder.

§ 03 LIVE MOCKUP — COMPANY PAGE · 1128 × 191

On *LinkedIn,* today.

The Company Page header as it will render after upload — `/company/altivaltd`, recommended ink avatar, banner rotating through A / B / C / D. Toggle below to compare. Logo square overlaps the bottom-left; the 240-px safe-zone in each CP banner keeps it clear of the typography.

§ 04 TAGLINE — 120 CHARACTERS MAX

The *one-liner.*

LinkedIn's tagline sits directly under the company name. It's the single line everyone reads. Three options — ranked by fit with the site's voice — with a French mirror for bilingual posts or a second Company Page locale.

§ 04.A ENGLISH PRIMARY — INTERNATIONAL AUDIENCE

01 · RECOMMENDED	**Operator, not consultant.** International advisory for decisive situations — EU & APAC.	95 / 120
02	International advisory platform. **One senior operator, embedded — until the work moves.**	93 / 120
03	Interim operating, advisory & transformation. **Embedded senior leadership across EU & APAC.**	105 / 120

§ 04.B FRANÇAIS MIROIR — POSTS BILINGUES · MARCHÉ FR

01 · RECOMMANDÉ	**Opérateur, pas consultant.** Conseil international pour les situations décisives — EU & APAC.	99 / 120
02	Plateforme de conseil international. **Un opérateur senior embarqué — jusqu'à ce que le travail avance.**	104 / 120
03	Management de transition, conseil & transformation. **Direction senior embarquée sur l'EU et l'APAC.**	101 / 120

WHY 01 · EN + FR Both recommendations are exact mirrors — same positioning as the pitch deck cover and the site hero, same punch, same word count bracket. "Opérateur, pas consultant." is the direct equivalent of "Operator, not consultant." — keeps the editorial bite. "EU & APAC" stays in English in both versions (standard in international business French).

§ 05 ABOUT — 2000 CHARACTERS MAX · EN + FR

The *full story,* edited for LinkedIn.

LinkedIn truncates after ~300 characters, so the first paragraph must land the promise alone. The rest deepens it — positioning, practice, reach, then contact.

English is primary (international audience); French is available to paste when you post bilingually.

Operator. *Not* consultant.

Altiva is an international advisory platform for situations where execution is the bottleneck. Not teams of analysts producing decks from a distance. One senior operator, embedded in the room — with real P&L experience, carrying judgment in, taking decisions, moving execution until the mandate is closed.

We are engaged when the strategy is sound and the growth is there, but the organisation is not moving. Interim COO mandates. High-stakes advisory to CEOs and executive committees. Transformation and AI programmes that are business-driven, not layered on top. Go-to-market build-out across EU and APAC. Operational reviews. Transaction preparation — fundraise, exit, repositioning.

Six mandate types, six geographies. Work already delivered across automation, Fortune 500 industrials, regional services businesses, channel programmes and enterprise operations — in Europe, the Middle East, and Asia-Pacific.

Anchored in Hong Kong with deep expertise across Europe & Asia-Pacific. Written work and methodology on altiva.hk. Direct enquiries: julien@altiva.hk.

Opérateur. *Pas* consultant.

Altiva est une plateforme de conseil international pour les situations où l'exécution est le point de blocage. Pas d'équipes d'analystes produisant des livrables à distance. Un opérateur senior, embarqué dans la pièce — avec une vraie expérience P&L, jugement apporté, décisions prises, exécution mise en mouvement jusqu'à la clôture du mandat.

Nous intervenons quand la stratégie est solide et la croissance au rendez-vous, mais que l'organisation n'avance pas. Mandats COO intérim. Conseil à fort enjeu auprès des CEO et comités exécutifs. Transformation et programmes IA ancrés dans le business, non surajoutés. Go-to-market et développement commercial sur l'EU et l'APAC. Revues opérationnelles. Préparation de transactions — levée, cession, repositionnement.

Six types de mandats, six géographies. Travaux livrés dans l'automatisation, l'industrie Fortune 500, les services régionaux, les programmes de canaux, et les opérations d'entreprise — en Europe, au Moyen-Orient et en Asie-Pacifique.

Basés à Hong Kong avec une expertise opérationnelle approfondie en Europe et en Asie-Pacifique. Publications et méthodologie sur altiva.hk. Contact direct : julien@altiva.hk.

LinkedIn indexes specialties for discovery. Lead with the six mandate types verbatim, then the discovery-heavy terms your audiences actually search. No fluff.

INDUSTRIES Under Industry, select **Business Consulting and Services** (primary) — it's the most searched and matches how buyers think. Secondary isn't publicly surfaced so it's optional.

§ 07 ANNOUNCE POST — RELAUNCH · ENGLISH

The *relaunch* post.

Pin this as the first post when the new site and the Company Page banner go live. The attached image below uses the **Personal Profile 4:1 Banner A** — not the narrow 1128×191 version — because feed posts render attached images at up to 1.91:1 and the 4:1 layout claims more real estate in the scroll. The narrow CP banner belongs on the page header, not in the feed.
